Based on the 28th article of the statute of the University of Primorska (Ur. I. RS, no. 51/15 UP-UPB2 and changes), the rector of University of Primorska, prof. dr. Klavdija Kutnar, issues the following

DECISION
on measures to prevent the spread of COVID-19

I.

From 24 September 2020, the following measures to prevent the COVID-19 disease are in place:

UNIVERSITY ACTIVITIES

All university activities are allowed at the premises of the University of Primorska, under the condition that the guidelines of the University of Primorska for carrying out work on the premises of the university during the current measures against the spread of COVID-19 disease are followed. In doing so:

- it is necessary to maintain a minimum interpersonal distance of 1.5 meters between individuals - a smaller distance is allowed only in specialized lecture halls (laboratories, practice rooms, music classrooms, simulation rooms, computer lecture halls, etc.),
- all students and staff must wear masks in common areas – they are not required in the offices / cabinets when a minimum interpersonal distance is respected. More specific requirements for wearing a mask are published on the university webpage.

MAXIMUM NUMBER OF PERSONS IN A ROOM

The maximum number of people who can be in a room at the same time is limited to:

- 52 people in regular lecture rooms, if a minimum interpersonal distance is guaranteed,
- 22 people in specialized lecture halls, where it is not possible to provide a minimum interpersonal distance.

ORGANISATION OF PUBLIC EVENTS

When organizing **public events, extracurricular activities, lifelong learning and other similar activities**, all instructions and recommendations of the National Institute of Public Health have to be observed.

GUIDELINES

The Rectorate prepares general guidelines for working, pedagogical processes and knowledge assessment, while university members prepare individual protocols, taking into account specifics of their premises. All students and staff have to be familiar with the guidelines, before they enter the university premises. All National Institute of Public Health guidelines regarding the COVID-19 disease have to be observed.

BUSINESS TRIPS AND MOBILITIES

Business trips abroad and outgoing international mobility of students and staff are allowed, under the condition, that quarantine is not required at the destination, on the way and upon return. Incoming mobility is permitted, following the regulations defined in the *Decision on ordering and implementing measures to prevent the spread of the infectious disease COVID-19 at border crossings at the external border, at checkpoints at internal borders and in the interior of the Republic of Slovenia.*

APPEALS

We appeal to all students and staff to take consistent care of hand hygiene and cough and to follow general hygiene measures to prevent the spread of disease,

We appeal to all students and employees to follow the verified and official information, especially the NIJZ and WHO.

We appeal to all students and staff to prevent discrimination and respect for fellow human beings.

II.

This decision repeals decision 1142-47/2020 of June 1, 2020.

The decision shall enter into force immediately and shall remain in force until revoked.

Prof. Klavdija Kutnar, PhD,
Rector of the University of Primorska
