

UP Faculty of Mathematics, Natural Sciences and Information Tehnologies

BIOPSYCHOLOGY - undergraduate study programme, 1st Bologna cycle**Course structure for students enrolled in the academic year 2010/2011 - 2014/2015 (BP-10)**

During their studies, students must complete 29 courses (26 compulsory courses, 1 internal elective course and 2 external elective course) and prepare final project paper.

All courses are awarded 6 ECTS-credits.

Table 1: Structure of the study programme (BP-10)

Year of study	Study obligation	Number	ECTS-credits (ECTS)	
			ECTS	ECTS/ Year of study
1.	Obvezni predmeti	10	60	60
2.	Obvezni predmeti	9	54	60
	Notranji izbirni predmeti	1	6	
3.	Obvezni predmeti	7	42	60
	Zunanji izbirni predmeti	2	12	
	Seminar - zaključna projektna naloga	1	6

Elective course

Elective courses are internal or external elective courses. All courses are awarded 6 ECTS-credits.

INTERNAL elective courses are courses within the study programme; the list of all internal elective courses is available in the section (table 5).

EXTERNAL elective courses: students may select external elective courses from study programmes provided by other institutions of higher education in Slovenia and internationally. The courses selected may fall within the fields of Psychology and Natural Sciences. Students may also choose a course from the set of internal elective courses as an external elective course.

Every academic year, the Faculty offers a different selection of elective courses from the internal elective courses listed. The Faculty tries to meet student interests within the limits of the Faculty's resources. The final selection of elective courses for the next academic year is published in July. The coordinator will help guide students when choosing their elective courses.
