- Additional funding for students with special needs ²	Students with the status of a person with special needs will be able to apply for additional funding, which will be allocated according to the individually approved eligible actual costs, following UP's call for Erasmus + EU grants.																	

² Persons with special needs include individuals who need to implement programs with additional professional assistance or with adjustments according to the nature of the specific special need. Students with special needs are: blind or partially sighted students or students with visual impairment, deaf and hard of hearing students, students with speech and language disorders, physically challenged students, long-term ill students, students with autistic disorders and students with emotional and behavioral disorders. (source: Article 69.a of the Higher Education Act)

Additionally, in addition to Erasmus+ EU grants, students who meet the conditions set by the Public Scholarship, Development, Disability and Maintenance Fund of the Republic of Slovenia will be able to obtain additional funds approved to the University of Primorska. In the project year 2022, this is 46,70 € /month.

The implementation of the Erasmus+ program at UP is linked to the project activities of various active projects, which, depending on the approved available funds, enable co-financing of students selected to participate in mobility within the Erasmus + KA131 project. The University of Primorska, as the contractor of this tender, reserves the right to change or supplement the conditions of co-financing. In the event of changes, all selected candidates will be duly informed. Students are expected to be informed in more detail about the possibility of co-financing mobility by June 2023.

It is important to be aware that Erasmus+ co-finances the costs of studying abroad and does not cover the costs in full. The amount of the awarded funds will be defined in the Erasmus+ Grant Agreement, which will be signed by the student with UP after the submission of the application documentation.

A student receiving an Erasmus+ EU grant continues to be eligible for other regional, national or other grants not managed by a national agency but by another organization (eg ministry or regional authorities).

Erasmus+ mobility procedures are defined in more detail in the Guidelines of the University of Primorska on Erasmus+ mobility, which are published on: http://www.upr.si/index.php?page=ac_content&item=90
