

OVERVIEW OF ABBREVIATIONS used in the course schedule of the autumn term of 2017/18

1. Abbreviations for STUDY PROGRAMMES

Abbreviation	Study programme
<i>Undergraduate study programmes</i>	
MA	Mathematics (in Slovene)
MA EN	Mathematics (in English)
MF	Mathematics in Economics and Finance
RIN	Computer Science (in Slovene)
RIN EN	Computer Science (in English)
BF	Bioinformatics
BI	Biodiversity
SK	Mediterranean Agriculture
BP	Biopsychology
AK	Applied Kinesiology
<i>Master's study programmes</i>	
PMA	Mathematical Sciences (in Slovene)
PMA EN	Mathematical Sciences (in English)
PRIN	Computer Science
PBI	Nature Conservation
PMF	Mathematics with Financial Engineering
PBP	Biopsychology
UPSI	Applied Psychology
<i>Other</i>	
PDM	Psychological Differential Module

2. Abbreviations for some COURSES

In the schedule below, the names of most are written out in full. We shortened the name if:

- the course is implemented in several study programmes under different names;
- the course is compulsory in some study programmes and elective in others.

Abbreviation	Course name	Study programme
ALG-I	Algebra I - Matrix Calculus	MA, MF, BF - compulsory
	Mathematics II - Algebra I	RIN - compulsory
ALG-I EN	Algebra I - Matrix Calculus	MA EN - compulsory
	Mathematics II - Algebra I	RIN EN - compulsory
ANA-I	Analysis I - Foundations of Analysis	MA, MF, BF - compulsory
	Mathematics I - Analysis I	RIN - compulsory
ANA-I EN	Analysis I - Foundations of Analysis	MA EN - compulsory
	Mathematics I - Analysis I	RIN EN - compulsory
PROG-I	Programming I	RIN, BF - compulsory

Abbreviation	Course name	Study programme
	Computer Science I	MA, MF - compulsory
TOR-I / DM-I	Theoretical Computer Science I - Discrete Structures	RIN - compulsory
	Theoretical Computer Science I	BF - compulsory
	Discrete Mathematics I - Set Theory	MA, MF - compulsory
RAČ-PRAKT (RIN, BF)	Computer Practicum I	RIN - compulsory
	Computer Practicum	BF - compulsory
SOC-PSIH	Social Psychology	PBP - elective
	Applied Social Psychology	UPSI - compulsory
RAZV-PSIH	Developmental Psychology II	BP - compulsory
	Developmental Psychology: from Adolescence to Death	PBP - elective
STOH-PROCESI	Stochastic Processes I	MF, BF - compulsory
	Stochastic Processes	MA, MA EN - elective
VERJETNOST	Probability II	PMF - compulsory
	Probability	PMA - elective
IP-ANALIZA-I	Selected Topics of Analysis	PMF - compulsory
	Selected Topics of Analysis I	PMA - elective
AKT-MAT / VREDN-ZAV-PROD	Actuarial Mathematics	MF - elective
	Valuation of Insurance Products	PMF - compulsory
RAČ-PRAKT (RIN EN, MA EN)	Computer Practicum I	RIN EN - compulsory
	Computer Practicum	MA EN - compulsory

3. Abbreviations for GROUPS (for undergraduate study programmes)

As previously explained in the *Instructions for Viewing the Course Schedule*, the course schedule also includes information about the group(s) of students attending the course.

A group can be the MAIN GROUP or one of its SUB-GROUPS.

The **main group** includes all students from a certain year of study in the study programme. Its abbreviated name consists of the abbreviation of the study programme (for example: MA, RIN, BF...) and the year of study (1, 2, 3). An example of the main group: MA3 = 3rd year of the undergraduate study programme Mathematics.

The main group can be divided into **sub-groups** if:

- the students of the same year of study in the study programme are divided into more group at seminars (SE), tutorials (SV) or laboratory work (LV). An example: »RIN1-1skup« = students of the 1st year of study in the undergraduate study programme Computer Science who are included in the 1st group; groups are listed under a) below;
- the sub-groups of the main group are also **elective courses**, as they are attended only by the students who have chosen the course. An example: »BI2-BVAJ« = students of the 2nd year of study in the undergraduate study programme Biodiversity who have chosen the elective course Biological Topics in English.

a) COMPULSORY courses

If students are divided into groups for seminar sessions (SE), tutorials (SV) or laboratory work (LV), the courses are marked with the main group (BP1, RIN 2, BI3, etc.) and its sub-groups.

Below is a list of the courses and programmes for which the division of students into groups is necessary for seminars (SE), tutorials (SV) or laboratory work (LV).

Abbreviations	Groups	Division into groups for seminars, tutorials or laboratory work within the following courses
1st YEAR		
RIN1-1skup	1st year RIN, 1st group	Programming I, Computer Practicum I
RIN1-2skup	1st year RIN, 2nd group	
RIN1 EN-1skup	1st year RIN EN, 1st group	Programming I, Computer Practicum I, Theoretical Computer Science II - Formal Languages and Computability
RIN1 EN-2skup	1st year RIN EN, 2nd group	
BI1-1skup	1st year BI, 1st group	General Botany, General and Inorganic Chemistry
BI1-2skup	1st year BI, 2nd group	
BP1-1skup	1st year BP, 1st group	Biochemistry and Genetics in Biopsychology
BP1-2skup	1st year BP, 2nd group	
BP1-3skup	1st year BP, 3rd group	
2nd YEAR		
RIN2-1skup	2nd year RIN, 1st group	Programming III - Concurrent Programming, Introduction to Database Systems, Computer Networks
RIN2-2skup	2nd year RIN, 2nd group	
BI1-1skup	2nd year BI, 1st group	Plant Physiology
BI1-2skup	2nd year BI, 2nd group	
3rd YEAR		
BP3-1skup	3rd year BP, 1st group	Psychopharmacology
BP3-2skup	3rd year BP, 2nd group	
BP3-3skup	3rd year BP, 3rd group	

b) ELECTIVE courses

The sub-groups for elective courses are marked as follows: the main group is listed first (BI1, BF2, etc.), followed by the abbreviation for the elective course (e.g., BI1-BVAJ).
