

# ERASMUS+ BIP | AI IN FUTURE MOBILITY

**3 ECTS | International teamwork | Hands-on  
AI experience**

**Location:** Koper, Slovenia

**Online component:** May–June 2026

**On-site component:** 27–31 July 2026

**Partner institutions:** HTW Dresden | Vytautas  
Magnus University | University of Silesia in  
Katowice

## About the programme

Discover how artificial intelligence is shaping the future of mobility and autonomous vehicles.

**Target group:** Students of Computer  
Science and Data Science

## What will you do?

- Work with real-world data (camera, LiDAR, telemetry)
- Learn machine learning methods

## Why participate?

- Develop practical skills
- Collaborate in international teams
- Work with real datasets

## Application

- Deadline: **4 May 2026**
- Apply via:
