

INTERNATIONAL WORKSHOP ON CONSERVATION BIOLOGY

14.5.2013 in Koper, Slovenia

The theme of the workshop is **Conservation ecology and genetics within the socio-economic context.**

The workshop will focus on multidisciplinary approaches in conservation biology, but contributions from related topics are welcome as well.

The registration is free. Should you wish to present your work, please send an abstract of up to 300 words, by 1.5.2013.

We look forward to seeing you!
